PZIIIT08	'S' Shackles Set of Two (Panzer III Ausf A-N)	\$ 35.00
PZIIIT08K	'S' Shackles Set of Two (Panzer III Ausf A-N) Kit	\$ 20.00
		
PZIIIT09	Jack Block (Panzer III Ausf A-Early J)	\$ 50.00
PZIIIT09K	Jack Block (Panzer III Ausf A-Early J) Kit	\$ 20.00
<p data-bbox="277 674 748 743">This jack block was also used on Command tanks as the late type was too high to allow the 1.4 m antenna trough to be fitted.</p> 		
PZIIIT10K	Jack Block (Panzer III Ausf Late J-N)	\$ 50.00
PZIIIT10K	Jack Block (Panzer III Ausf Late J-N) Kit	\$ 20.00
		
PZIIIT11	Tow Rope Set with working wing nuts and eye bolts (Panzer III Ausf J-N)	\$ 80.00

PZIIIT13	Convoy Light (Panzer III Ausf G - N)	\$ 40.00
PZIIIT13K	Convoy Light (Panzer III Ausf G - N) Kit	\$ 20.00

The convoy light will come with the correct two piece mounting bracket.

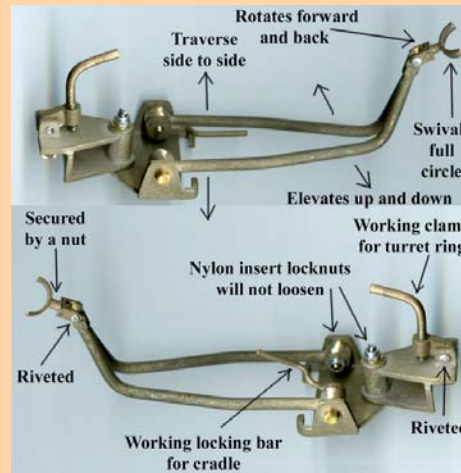

PZIIIT14K	Rear Light (Panzer III Ausf A - F x 2, Ausf G-N x 1)	\$ 12.00
PZIIIT14K	Rear Light (Panzer III Ausf A - F x 2, Ausf G-N x 1) Kit	\$ 7.00

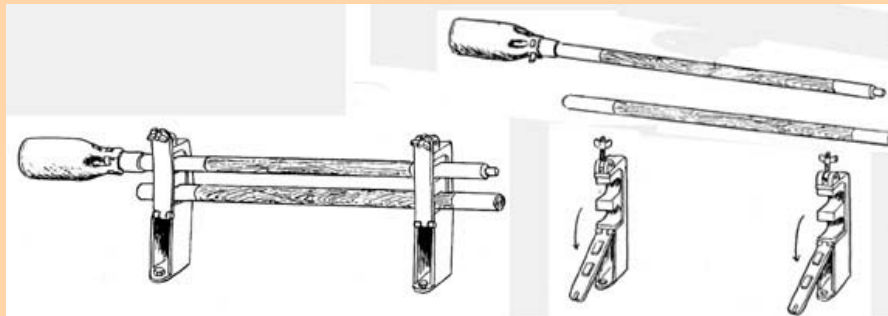

PZIIIT15	MG AA Mount (Panzer III L to N)	\$ 80.00
PZIIIT15K	MG AA Mount (Panzer III L to N) Kit	\$ 50.00

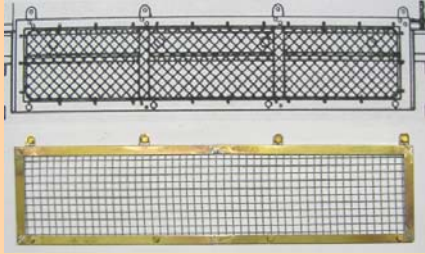

The Ausf L maybe to early for the MG AA Mount, but I am sure if any served long enough they would have had them fitted.

PZIIIT16A	Cleaning Rod Two Piece Aluminum Ends, Brackets & W/Wing Nuts (Panzer III N)	\$ 55.00
PZIIIT16AK	Cleaning Rod Two Piece Aluminum Ends, Brackets & W/Wing Nuts (Panzer III N) Kit	\$ 30.00
PZIIIT16B	Cleaning Rod Two Piece Brass Ends, Brackets & W/Wing Nuts (Panzer III N)	\$ 60.00
PZIIIT16BK	Cleaning Rod Two Piece Brass Ends, Brackets & W/Wing Nuts (Panzer III N) Kit	\$ 35.00

This can be ordered with brass or aluminum cleaning rod ends. I have not made a prototype of this as it requires a lot of fine brass work to make the brackets. From my research these brackets were only used on the Ausf N, however I could be wrong.

PZIIT17A	Cleaning Rod Two Piece with Aluminum Ends & Two Leather Straps(Panzer III A-M)	\$ 16.00
PZIIT17B	Cleaning Rod Two Piece with Brass Ends & Two Leather Straps(Panzer III A-M)	\$ 21.00
<p>Finding out were and how the cleaning rods were stowed is difficult, all I have found is that on some tanks they were attached to the antenna trough by two leather straps. The only reference I have of this is a lined drawing were they are attached to the 1.4 m antenna trough on a Ausf K Command tank. Would be interested to hear if anyone knows more.</p>
