

Mike Stannard - Master Series - Authentic - 1/6th Scale - World War II

Wood Ammunition/Weapon Boxes and Furniture

PAGE 1

Here are some new product lines that I may carry in the future. I only have a few samples to offer at the moment. Depending on the demand I may carry them as regular items in the future. all items are made in Germany and are available from some dealers in Europe. My prices are the same, but those in the US will save on shipping costs from Europe.

These are laser cut from wood and all lettering is laser cut into the wood. They are only available in kits which are very simple to assemble with glue.

With this system I can offer all types of munitions and weapon boxes. There will be a minimum quantity order for each design request.

Item #	PRODUCT DESCRIPTION	PRICE
